How do i check the status of my driver's license in north carolina

Driver's License Suspensions in Illinois In Illinois, your driver's license can be suspended or revoked by the IL Secretary of State (SOS) for several reasons, including not paying your traffic tickets, having too many traffic violations, failing to pay child support, and more. Suspensions and revocations both mean you've lost your driving privileges, but suspensions have an end date and revocations represent the loss of your driving privileges indefinitely. Read more to lean about Illinois driver's license suspensions, reinstatement, DUI revocations, and fees.About Your IL Suspended License When your driver's license is suspended, you will be given a written notice from the Illinois SOS requiring you to surrender your license.Reasons for Your License Suspension In Illinois, the SOS can suspend your driving privileges for the following offenses: Traffic violations – 3 moving violations within 12 months. Failure to appear in court for a traffic citation or otherwise resolve the issue before your court date. Parking violations –10 unpaid parking violations or more. Automated traffic violations – You will have your license suspended if you have 5 automated traffic violation or more and have not paid your violations. Failure to pay child support. – Under the “Deadbeats Don't Drive" Act, you can have your license suspended for non-payment of court-ordered child support. Tollway violations or evasions – Your license may be suspended for failure to pay fines for 5 toll violations or evasions or more. Safety responsibility violations – If the SOS finds you to be at fault for a car accident while driving without car insurance. Graduated Driver's License violations - Your license may be suspended if you are convicted of a moving violation or serious offense. DUI – Your license can be suspended for driving under the influence of alcohol or any illegal substance (or for being impaired by medication). For more information, please see the “DUI Revocations" section below. NOTE: You may face additional penalties imposed by the court system in addition to those imposed by the IL SOS.Driving with a Suspended License Convictions of driving with a suspended license can lead to: An increase in the length of your suspension. Possible revocation of your license. Jail time. Seizure of your car. Check Your License Status Your IL driving record is a picture of your driving history in the state and shows everything from moving violations to your license status (i.e., valid, suspended, or revoked). It's always smart to monitor your record – even if your license status is valid – because it can affect your car insurance rates, and sometimes even your employment if you drive on the job. Check our driving records section for more information. The SOS requires either an informal or formal hearing for all Illinois drivers facing license suspension. A hearing will result in either the restoration of your driving privileges, the granting of a restricted driver permit (see “Restricted Driving Permits" below), or the denial of your driving privileges. Please see “Reinstating Your License" below for more details on the types of hearings and requirements.Reinstating Your IL Driver's License To have your suspended Illinois driver's license reinstated, you will have to participate in an informal or formal hearing with a Secretary of State hearing officer. To request an informal or formal hearing, you must first have a consultation with a SOS hearing officer to assess your eligibility and guide you towards further action. Contact any Hearing Officer Facility Location for more information on scheduling a consultation.Informal Hearing You may request an informal hearing with an informal hearing officer IF your driver's license was suspended for: An offense that did not involve a fatality. A single DUI offense. Penalties handed down for minor moving violations. To request an informal hearing, contact any hearing officer facility location. Your hearing may result in a granting of a restricted driving permit (see “Restricted Driving Permits" below) or full reinstatement of your driver's license. The final decision will be mailed to you.Formal Hearing You must have a formal hearing IF your driver's license has been suspended for: An offense involving a fatality. Multiple DUI offenses. You may only request a formal hearing by mail. To do so: Complete a Formal Hearing Request (form DAH H 12). Mail the form to the address of the location where you wish to have your hearing. Each address is listed on the Formal Hearing Request (form DAH H 12). Provide payment for the $50 filing fee with one of the following payment methods: Check or money order payable to “Secretary of State". Credit card (a processing fee will apply). Upon receiving your hearing request and fee payment, the SOS will mail you a Formal Notice of Hearing with your scheduled hearing date. If you do not speak English, you are responsible for bringing in your own interpreter to your hearing. If you are hearing impaired, you can request that the Secretary of State provide a sign language interpreter. Your hearing may result in a granting of a restricted driving permit, denial of reinstatement, or full reinstatement of your license. Results will be mailed to you after your hearing. Results will NOT be given by phone. NOTE: When you go in for your hearing, remember that you must show a valid photo ID when entering a state building. Acceptable photo ID includes: Driver's license. State-issued ID card. Passport. If you are unable to provide photo ID, bring your Formal Notice of Hearing (form DAH H 12) and another form of ID, such as your: Social Security card. Voter registration card. Credit card.Post-Hearing Requirements If an informal or formal hearing results in the restoration of your full driving privileges, you will be required to take additional steps to have your license reinstated. To reinstate your license, you must provide the SOS with the following: Proof of insurance. Fee payment. (See “Fees for Suspended IL Licenses" below.) DUI Considerations If your driver's license is being reinstated after your second DUI conviction, you will be required to install a breath alcohol ignition interlock device (BAIID) in your car. The BAIID tests your breath and will not allow you to start your car if alcohol is detected.Reinstatement of Revoked Licenses If your license is revoked for any reason, you CANNOT apply for reinstatement for at least 1 year.DUI Revocations in IL If you are convicted of a criminal DUI in Illinois, your driver's license will be revoked. A revocation of your license is an indefinite loss of your driving privileges. Remember, if your driver's license is revoked for any reason (including a DUI conviction), you cannot apply for a new license for at least 1 year. The minimum length of your DUI-related revocation depends on the number of offenses for which you are convicted and the specific circumstances surrounding your arrest and conviction: 1st offense: revocation of 1 year. 2nd offense in 20 years: revocation of 5 years. 3rd offense: revocation of 10 years. 4th offense (and any subsequent offenses): Lifetime revocation. Please note that DUI convictions may result in additional criminal penalties imposed by the court.Statutory Summary Suspensions If you are pulled over and arrested for drinking and driving in Illinois, you are subject to a statutory summary suspension of your driver's license by the SOS, whether or not you end up being criminally convicted for a DUI. The arresting officer will request that you submit to chemical testing. If you refuse to take the chemical test, you automatically face license suspension. How long your license is suspended depends on the number of offense. If you submit to the testing and are found to have a blood alcohol concentration (BAC) of 0.08% or higher, you face a suspension of your driver's license. Statutory suspensions are effective on the 46th day from the date of the notice of suspension. You might be eligible for a Monitoring Device Driving Permit (MDDP) that allows you to drive a vehicle installed with a Breath Alcohol Ignition Interlock Device (BAAID) if you are under a summary suspension. You can be issued an MDDP through your formal hearing. For more information regarding DUI and related penalties, please visit our IL DUI page.DUI-Specific Reinstatement Requirements To have your driver's license reinstated after a DUI conviction or a summary suspension, you must complete an alcohol/drug evaluation by a Division of Alcoholism and Substance Abuse-licensed provider. Your evaluation will classify you as minimal risk, moderate/significant risk, or high risk. Depending on your risk level, you will have to take the following additional steps before having your license reinstated: Minimal risk: Complete a Division of Alcoholism and Substance Abuse (DASA)-licensed DUI Risk Education class. Moderate risk: Complete a DASA-licensed DUI Risk Education. Provide proof of early intervention. Significant risk: Complete a DASA-licensed DUI Risk Education. Provide proof of entering recommended alcohol treatment. Provide continuing care status report. High risk*: Take all above steps for “significant risk." Show active participation in all activities specified in your continuing care plan. NOTE - the specific requirements for High risk are different depending on whether you are classified as Dependent or Non-Dependent.For more information on DASA-approved courses, contact the Department of Human Services Family Community Resource Center helpline at (800) 843-6154.IL Restricted Driving Permit You may be able to apply for a restricted driving permit (RDP) while your license is suspended or revoked. An RDP allows you to drive: During certain times of day. In certain designated areas. To apply for an RDP, you must go through the same informal/formal hearing process described in “Reinstate Your IL Driver's License" above. During your consultation, you must show that you need to drive for at least one of the following reasons: Work. Medical appointments, daycare, or school for: Yourself. A child. A family member. An elderly person. A person with disability. An alcohol awareness class (if your license has been revoked due to DUI). NOTE: Meeting the above criteria does not automatically make you eligible for an RDP. You will not be eligible for an RDP during a summary suspension. However, you may be eligible for a Monitoring Device Driving Permit. (See “DUI Revocations" above.)Fees for Suspended Licenses in IL Your reinstatement fee depends on the reason for your license suspension: $70 for: Failure to appear in court. Failure to pay child support. Parking suspensions. Safety responsibility suspensions. Tollway suspensions. $100 for not having the minimum required Illinois car insurance. $250 for: Statutory Summary Suspension – 1st offense. $500 for: Statutory Summary Suspension – 2nd offense and subsequent suspensions. You can pay your fee online using your driver's license number, or name and date of birth . If you are not able to use the online payment system please call (888) 261-5238.CDL Suspensions Rules for CDL suspensions can differ from standard driver's license rules, with most regulations being harsher for commercial drivers. Common reasons for CDL disqualifications include: DUI. Hit-and-run accidents. Committing a felony while operating a commercial motor vehicle. The use of a commercial vehicle for transportation of illegal substances. For more information, visit our Illinois Commercial Drivers section.
